WORK EXPERIENCE

Java Full Stack Developer

From April 2022 to August 2022
GiantLink Technologies Rabat, Morocco

- Designed and implemented a robust intranet application utilizing Angular and Spring Boot, tailored for seamless management of recruitment processes, employee affairs, and overall company operations.
- Acquired practical expertise in micro-services architecture, honed skills in Jenkins CI/CD pipelines, and effectively utilized tools like ClickUp. Strengthened proficiency in key DevOps practices, contributing to a comprehensive skill set in the ever-evolving landscape of software development.

ASP.NET Full Stack Developer

From May 2021 to June 2021
GUIR ZIZ RHERIS Hydraulic Basin Agency Errachidia, Morocco

- Implemented a robust algorithm that analyzed water temperature data from multiple sources in DRAA-TAFILALT region, delivering precise relative humidity measurements with an average accuracy rate of 95% using ASP.NET framework.
- Additionally, spearheaded the development of a user-friendly desktop application, empowering the administration to efficiently manage valuable data resources.
